

*Open the door to endless possibilities.*

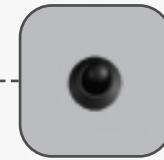

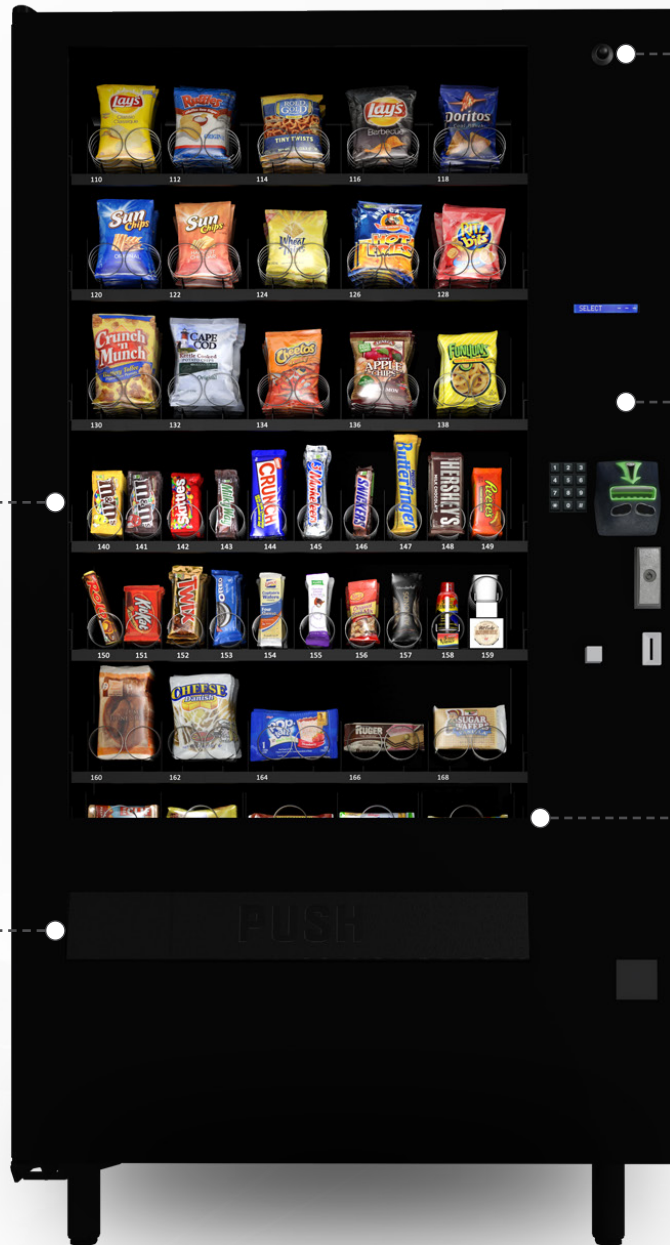

Upgrade your OEM machine to the latest technology with a Revision Door. Equipped with our exclusive Universal Control Board (UCB), this state-of-the-art technology allows you to save time by remotely updating prices across your fleet with the click of a button. Revision doors are available in two colorways, black and gray, or have our in-house design team create a custom wrap for your brand.

Add your own personal branding with a custom made machine wrap or select from our library of stock graphics.

Drop sensor technology to ensure product is properly dispensed so you never lose a sale.

Energy-efficient motion activated LED lights for key product presentation.

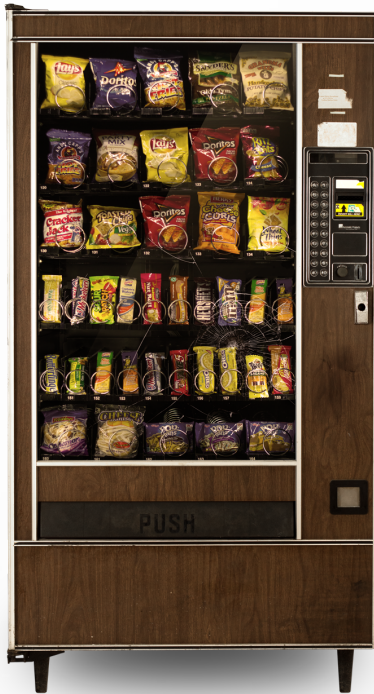

Optional Venture touchscreen with shopping card and dual price display.

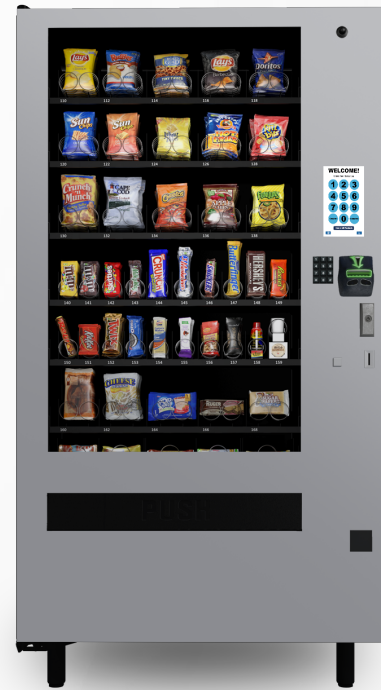

Optional 7th tray can be included for the ability to add gum, mints or energy shots for added revenue.

## Original OEM

## Revision Door

### Available Enhanced Features:

- 7" touchscreen
- Coin mechanism
- Validator
- Credit card reader
